Complex project SE (CU75047)

Contents

List of Figures

1   Introduction

2 Background

2.1 Organization

2.2 Products

2.3 Existing solutions

3 Problem and goals

3.1 Project and solution

The project aims to create a reliable solution that abolishes the current system of compiling information through excel sheets.

The main focus will be to create an intuitive application that boasts a comprehensive UI that aims to streamline the process of compiling information for the analysts and data engineers of the Strategic Knowledge Center of Undermining Crime.
